

Maths wc 29th June

This week, we will be linking our maths to our topic work on the Romans by learning about Roman numerals. We will also continue to practise your times tables, and there is a reasoning activity on Friday. As with last week, I am uploading the activities to our class page on the school website; please don't be overwhelmed by the number of activities on some days, they are all quite short. There are daily folders on Seesaw for you to upload your work to.

Monday

Number of the Week

Spend 15 minutes on TTRS

Find out what the Romans did for us by watching this video.

Tuesday

Mental warm-up: Complete a Soundcheck on TTRS.

Watch the following video on Espresso (use your login details from last week):

https://central.espresso.co.uk/espresso/modules/m2_roman_numerals/video_pages/video_roman_numerals.html?source=search-all-all-all&source-keywords=Roman%20numerals

Complete Nero's Sundial activities.

Wednesday

Mental warm-up: Complete a *Garage* session on TTRS.

Read through Wednesday's lesson.

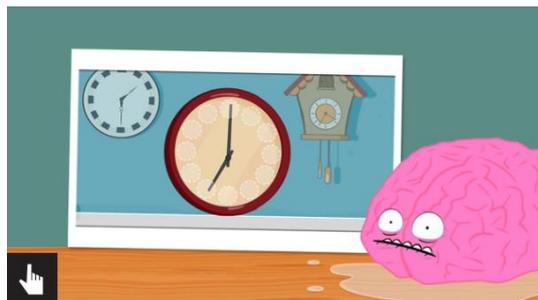

Complete the *Roman Numerals Matching Sheet* (Add response, select your name, complete on Seesaw).

Have a go at *Nero's Numbers*.

Enjoy a game of *Bingo* with your family.

Thursday

Mental warm-up: Take part in a TTRS Festival for 10 minutes by logging in at any time between 10am and 11am.

You can revisit time using this link, which will remind you of the difference between the analogue and digital clocks. At the bottom of the page, challenge yourself to put the Roman numerals in the correct order on the clock face.

Use your knowledge of the Roman numerals to solve the word problems. Remember to use the RUCSAC method.

Go on a Roman shopping spree... how much will you spend?

Friday

Mental warm-up: Challenge a friend to a *Rock Slam* on TTRS. You will need to know their rock name to find them.

Testbase - Have a go at this reasoning activity looking at counting and multiples.

Challenge: Can you complete the 0-30 mosaic?
